

Natasha Wangari

Nairobi, Kenya, +254 797 632 121 , wangar3y@gmail.com

PROFILE

Motivated and detail-driven Data Analyst with certified training from ALX Africa, one of the continent's leading technology and leadership development programmes. Equipped with practical experience in data analysis, visualisation, and reporting gained through an internship with an international development consultancy. Committed to leveraging data to generate insight that drives meaningful outcomes across Africa's development ecosystem. Eager to continue growing through structured programmes that invest in young African professionals and amplify their contribution to the continent's digital economy.

EMPLOYMENT HISTORY

Oct 2025 — Mar 2026

Data Analyst Intern, GOPA Kenya

Nairobi, Kenya

International development consulting firm delivering projects across Africa.

- Reviewed and consolidated manual timesheet and budget spend records from field teams operating across 8 Kenyan counties, identifying data gaps and inconsistencies in legacy reporting processes.
- Automated the consolidation of field team data into a centralised Power BI dashboard, giving management real-time visibility of staff hours and expenditure across all county operations for the first time.
- Reduced reporting lag significantly by replacing manual spreadsheet compilation with a live, self-updating dashboard, enabling faster resource allocation decisions.
- Collaborated with cross-functional teams to streamline data collection workflows and improve reporting consistency across geographically dispersed field operations.
- Cleaned, organised, and validated datasets to enhance data accuracy and usability, supporting evidence-based project decision-making.

EDUCATION

Mar 2024 — May 2025

Certificate in Data Science & Data Analytics, ALX Africa

Nairobi, Kenya

- Rigorous pan-African programme in statistics, Python programming, SQL database querying, and introductory machine learning, accredited across Africa and beyond.
- Built and presented interactive data visualisations and dashboards using Power BI as part of project-based assessments.
- Completed multiple end-to-end projects involving real-world data, practising data-driven problem solving and evidence-based decision-making.

Jan 2019 — Dec 2022

Kenya Certificate of Secondary Education (KCSE) , Ndumberi Girls' Secondary School

Kiambu, Kenya

SKILLS

Adaptability & Learning Agility

Community Engagement
